

Spa 2222m

At Spa 2222m, we only use natural Alpine products. In Riffelalp, we also use specifically picked meadow herbs and products from Jardin des Monts, the natural ingredients of which are grown organically at an altitude of 1,350 m. In the idyllic mountain herb garden which is above Rossinière, the herbs are grown in an area of 2,000m², hand-picked and processed into the noble ingredients of Jardin des Monts.
